

Sevilla monumental sightseeing tour

The best expression about the essence of Seville is the **happiness**. This city of almost 3000 years of history will win your heart for its way of life of sevillians, an open people with the rest of the world and hospitable to enjoy and share each moment.

We can find this magical spirit in the streets, which makes Seville a very special city, amazing site full of stories and prosperous towns which left an important trade, permanent for the sevillian population. This legacy has created along the pass of the centuries our cultural, monumental and artistic heritage, like for example the **biggest Gothic Cathedral** in the world, the beautiful **Alcazar** or the **Golden Tower**. Seville has been the scene of important events and expositions like the **ibero-american exposition in 1929** or the **Universal one in 1992**.

The fertility of the lands and its favorable weather with soft winter and almost 3000 hours of sunshine in the year, (if you have visit it in august when temperature reaches 47°C in shade, may be it is no t so favorable weather in your opinion), attracted also old civilizations, like Phoenicians and Carhaginians to live in this shore, **Tartessos** and important emperors as : **Trajan and Adrian** .
